From the Principals Desk

Dear Parents,

Touch Wood School, sincerely creates an atmosphere of worthwhile education and a healthy environment where work, sports and co-curricular activities mould our students to be the brightest and the best. In order to achieve this, the parents and the school authorities must work together to inculcate certain values in the children.

Respect for one's elders, especially the teachers and a commitment to discipline are engraved in Indian culture. Our aim is to retain these ideas in our younger generation. A student who has a sense of respect for the teacher will be more receptive to authority and to learning. This will enable him / her to get the best out of the school.

Just as a machine comes with a prescribed manual for its correct use, we want you to use the guidelines given by the school from time to time to get the best out of our children and boarders. The boarding children become our priority where their comfortable & hygienic stay, food, moral values and academic follow up, after school, is strictly followed and are under 24 hrs vigilance by the Hostel staff and Head

Assuring you of our best co-operation for all times to come.
